Fred nu recept: Sverige, Finland och Ukraina blir neutrala länder och buffertzoner mellan Nato och Ryssland. Sedan fredsförhandlingar.

16:17:25 Från Britta Kahanpää till Alla:

Usa behöver ha ett krig vart 7:de år, för en ständig uppgång på börsen och BNP. Dock måste kriget förläggas långt från de egna gränserna.

16:27:53 Från Agneta Norberg till Alla:

WE should mention the coup d'etat in Kiev in 2014. The elected president Viktor Yanukovich had to flee not to be murdered by the neo-nazis. The US was very active in this by State Department representative in Europe, Victoria Nuland, and US ambassador in Ukraine Geoffrey Pyatt and senator Mc Cain (now dead). The eastern part Donbass didnt want to comply with the law the new government suggested, the Russian language was forbidden. They started a civil war cruel put down by Azov batallion. The civil war lasted 8 years. Putin suggested peace talks in Mlnsk but Britain and the US didn't comply. Eventually on demand from Donetsk and Luhansk for denazification and demilitarization in 2022..

16:29:04 Från Britta Kahanpää till Alla:

Usa har så starka ekonomiska påtryckningar på Sverige, så inte ens Socialdemokraterna vågar säga nej till det som USA tvingar Sverige till.

Let's start by you writing your thoughts in this chat. If you think that the question could be interesting to wider audience, please propose it since my English is not too good

17:31:26 Från David Bennett till Alla:

Replying to "When did the Third W..."

I don't know that WW3 has started as a hot war. Global thermonuclear destruction has been a risk since the Manhattan Project. Of course the risk is greater now but I couldn't possibly quantify it.

As regards posing the question to the speakers, I'm not sure which of them would qualify as expert in that area.

17:31:36 Från Arci Pasanen till Alla:

Please write your questions for the Q&A session here in the chat! Or ask them in person later.

17:38:32 Från Hans Eriksson till Alla:

What are your conditions for a possible conciliation with the Assad government? Autonomy? How dependent are you on the US support? What are the risks for deterioration of relations with Turkiye?

17:50:04 Från Vera Vratusa till Alla:

Would you agree that the Ukraine war is the proxy war between Russia and NATO, military organisation of the collective West, which wanted to exhaust Russia first, and then turn against China?

17:51:17 Från Hans Eriksson till Alla:

What are your relations with the Syrian opposition in Idlib?

18:02:43 Från Vera Vratusa till Alla:

Replying to "When did the Third W..."

Bravo, you are true anti NATO activist since you remember all the way back to 1999 NATO terrorist bombing of Serbia with projectiles "enriched" with depleted uranium. Now US is sending as "help" to Ukraine just such projectiles. Cancer incidence in Serbia skyrocketed, in my family my sister died of it and also my former husband who visited Republika Srpska in Bosnia and Herzegovina during the 1995 bombing by NATO.

You wonder what happened to the spirit that used to be in Sweden during the Vietnam war

18:08:42 Från Vera Zalka (Hu) till Alla:

Replying to "When did the Third W..."

We have to not let to be forgotten what the war criminal US presidents and governments have done since 1945!! Colonialism. No fair trade, they rob out the resources of the whole World. Pollute the whole nature. Destroy nature, people and communities and infrastructure. Why? for profit!!

18:11:44 Från Vera Vratusa till Alla:

Replying to "When did the Third W..."

Exactly. However US is the empire on its downward path, which cannot be stopped. De/dollarisation of the world trade advanced. This is why its financial oligarchy is so dangerous and might push the red nuclear button

Eleanor .. I'm lying on the sofa, listening - You've stirred me from torpid semi-slumber!
You've hit the nail on the head for me in so many ways: 'Yes, we need to fuck their shit up',
otherwise they'll drag the whole world down into Hell, with all their greed-oriented predilections.

@Rebecca Sjödahl Tack för tips. Vi har haft ukrainare och ryssar inbjudna. Vi har mobiliserat internationella fredsrörelsen till stöd för ryska krigsmotståndare och bidragit till en oväntad frigivning av Boris Kagarlitskij nyligen. Vår samarbetspartner IPB har kontakt med både israeliska och palestinska fredsförespråkare.

18:17:48 Från David Bennett till Alla:

Q to Eleanor: how do (can?) groups within civil society "fuck their shit up"? demonstrating isn't enough. Gluing yourself to the road isn't enough.

What do you think needs to be included in the ecology of responses this coming year?

18:17:59 Från Vera Zalka (Hu) till Alla:

Eleanor, do you think that there can be changes on the basis of big private capitals, where the biggest profits come from weapon production and consuming, selling people, trafficking drugs, and protectionistic multinational companies doing what ever they want. Totally different economies should be established, where people produce Products to the needs of people.

18:19:47 Från Vera Zalka (Hu) till Alla:

Weapon is not such a product and there is a big list of useless products, that the "free producers" and advertisers force on us.

18:20:58 Från Vera Vratusa till Alla:

Replying to "Eleanor, do you think..."

Yes, without overcoming capitalist mode of production with its inherent contradiction between unlimited possibilities of social means of production development, within straight jacket of accumulation of capital for private profit.

18:29:57 Från Agneta Norberg till Alla:

The US is promised to use these military base in Sweden: Kiruna, Boden, Vidsel, Luleå, Härnösand, Östersund, Älvdalen, Uppsala, Kristinehamn, Berga, Såtenäs, Kvarn, Halmstad, Ravlunda, Visby, Ronneby, Revingehed.

18:32:28 Från iPhonesteven burak till Alla:

Wouldn't/Couldn't it be a really useful development for a new geographic 'free land' to be created with the assent of many nations. Corporations and profit would not be involved in this 'New Land'. Money would not be used to purchase, everything conceived of and done would be through 'sharing and caring', acts of kindness/generosity of the human spirit. More or less all people from everywhere would be welcome to inhabit the 'New Land', on the simple commitment that they would not be interested in committing violence, be prejudiced against any type of people, etc. The 'New Land' would be managed in a wholly renewable way. This would serve as a real geographic new alternative world model, and also serving as something of a light to the world, which could then permeate it by example. The 'New Land' would have no hierarchical or punitive structures, run by all for the entire purpose of nurturing empathy/love for the good of all creatures and all life in this 'New Land'.

18:35:18 Från Vera Vratusa till Alla:

Replying to "Wouldn't/Couldn't it..."

Realistically implementable utopia without some kind of anti-capitalist revolution?

18:35:42 Från Agneta Norberg till Alla:

We have to DO something: I have done the following: Intruded into US nuclear testing in Nevada in 1995 and 1996, cut the fence in a Menwith Hill controlling the world in the UK, I have cut the fence surrounding the base in Kallax Luleå where the US was training for war towards Russia in 2015, WE have to do something visibel a

18:39:36 Från iPhonesteven burak till Alla:

Replying to "Wouldn't/Couldn't it..."

Yes, working together with anti-capitalist mobilisations but taking place, activated from outside this 'New Land', whose internal systemic motivations would be all positively creative rather than negative in any way.

18:44:57 Från Eleanor Goldfield till Alla:

Tack tack allesamman.

18:45:56 Från Patrick Bond till Alla:

It is ok if I show a very few slides in my 10 min?

18:46:06 Från Vera Zalka (Hu) till Alla:

Replying to "Wouldn't/Couldn't it..."

Europe is Europe with Russian people, with all the Europeans who are not in the EU. We have to work and cooperate not compete. Europe needs to be a non nuclear area !! Go back to the Helsinki process. Europe should not allow US colonise Europe and put our continent to be an obedient slave of US militarists and government administration. Our governments are traitors and compradors.

18:47:10 Från iPhonesteven burak till Alla:

Yes, I'm bored of going on demos that don't rock a single amoeba never mind the boat!

I'm also bored with watching XR just break a few banks' windows which moves the dial of change not even a millimetre.

The suffragettes shook shit up here in the UK. Now they're semi-worshipped, though at the time the establishment treated them as terrorists.

Yes, we have to 'shake shit up', let's not be mealy-mouthed about what we all need to really collectively do! 😊

18:50:35 Från iPhonesteven burak till Alla:

If we don't 'shake shit up' we have a world to lose, which is an unconscionably big issue, to say the least! 😞

Question for Patrick: What are the strategies we must implement to put an end to imperialism in the world and build a lasting peace with justice?

19:17:12 Från Vera Vratusa till Alla:
Replying to "I see your questions..."
Democracy word lost its revolutionary meaning "the rule of the people and by the people" ever since antient times, and cyclical replacement of one world hegemonic power by another. It seems that we have the opportunity only to choose among class devided societies just the lesser evil

19:20:04 Från Patrick Bond till Alla:

19:31:46 Från iPhonesteven burak till Alla:

Goran, isn't the BRICS simply another capitalist constellation which in no real way alters the systemic foundations which are making everyone's world increasingly founder?

19:33:46 Från Vera Vratusa till Alla:

Replying to "Goran, isn't the BRI..."

None of the BRIC+countries has bombed people around the world with depleted uranium coated shells

I guess you're not reckoning in that critical tacit support, which you could perhaps also call 'aiding and abetting'

19:37:06 Från Rebecca Sjödal till Alla:

I wish Sweden would get back the spirit we had during the 60's, 70's and the 80's. If I get it right we didn't have the huge problem with desinformation and propaganda as we do now

Typicall collective west perception of the history!

19:38:05 Från Vera Zalka (Hu) till Alla:

Replying to "I see your questions..."

I think in all democratic countries there is democracy for those who are very successful and those who are on the border (do not suffer), but within "democracy" there lives and "flourishes" dictatorship of winners over the so called losers. So the lower classes do not have access to democratical "goods". Just think of the health care of the fantastic democratic USA. People just do not get it. Unemployed people can not travel, do not have access to culture, good food, and the most important to work/a job. In all democracies there are people who live under the dictatorship of selfishness, profit ect. there is no pure democracy. That is a neoliberal lie
